- advanced trade book
- Complete edition eBook only

The examiner-reviewed F6 Practice and Revision Kit provides invaluable guidance on how to approach the exam and contains past ACCA exam questions for you to try. You will learn what to expect on the test, and our detailed solutions provide tips on how to approach questions, advice on gaining easy marks and examiner's comments.

Since test items are the building blocks of any test, learning how to develop and validate test items has always been critical to the teaching-learning process. As they grow in importance and use, testing programs increasingly supplement the use of selected-response (multiple-choice) items with constructed-response formats. This trend is expected to continue. As a result, a new item writing book is needed, one that provides comprehensive coverage of both types of items and of the validity theory underlying them. This book is an outgrowth of the author's previous book, *Developing and Validating Multiple-Choice Test Items*, 3e (Haladyna, 2004). That book achieved distinction as the leading source of

guidance on creating and validating selected-response test items. Like its predecessor, the content of this new book is based on both an extensive review of the literature and on its author's long experience in the testing field. It is very timely in this era of burgeoning testing programs, especially when these items are delivered in a computer-based environment. Key features include ... Comprehensive and Flexible – No other book so thoroughly covers the field of test item development and its various applications. Focus on Validity – Validity, the most important consideration in testing, is stressed throughout and is based on the Standards for Educational and Psychological Testing, currently under revision by AERA, APA, and NCME Illustrative Examples – The book presents various selected and constructed response formats and uses many examples to illustrate correct and incorrect ways of writing items. Strategies for training item writers and developing large numbers of items using algorithms and other item-generating methods are also presented. Based on Theory and Research – A comprehensive review and synthesis of existing research runs throughout the book and complements the expertise of its authors.

The second edition of International Health and Safety at Work has been specially written in simple English for the thousands of students who complete the NEBOSH International Certificate in Health and Safety each year. Fully updated and matched to the March 2011 syllabus, this course book provides students with all they need to tackle the course with confidence. Full colour pages and over 200 illustrations bring health and safety to life. Each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter are also included to aid exam preparation. Endorsed by NEBOSH for the International General Certificate in Occupational Health and Safety. Provides all the material students need for the course including tables, forms and checklists that can be used for health and safety activities such as risk assessment Gives a unique summary of Occupational Health and Safety legal frameworks in over 20 countries including the EU and USA plus details of several ILO conventions and recommendations which are useful to students and a wide range of managers This NEBOSH-endorsed textbook introduces the reader to the fundamentals of health and safety in the workplace from an international perspective. The book not only meets the needs of students on the NEBOSH course but remains a useful reference for all managers who work to international standards and need to adapt them to local needs and practice. Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He received an MBE for services to health and safety and as director of RoSPA in the New Year's Honours List 2005. Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on various NEBOSH health and safety courses. He is a Chartered Engineer and a health and safety consultant.

This report from the Education Committee looks at the administration of examinations for 15-19 year olds in England. The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content. Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated. The Committee considers a number of options to change incentives, including: (i) A single board. This offers a simpler system, with no risk of competition, but the Committee believes the cost, risk and disruption outweigh the benefits; (ii) Franchising of subjects to exam boards. This removes syllabus competition, but again has downsides; (3) Or the current system of multiple boards. The Committee sees no benefit in competition on syllabus content, but the setting and marking of exams and associated administration, if properly regulated, could generate incentives and drive quality up, offering value for money to schools and colleges. The Committee also recommends the development of national syllabuses, accredited by Ofqual. The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate.

Since the adoption of the Rome Statute of the International Criminal Court in 1998, international criminal law has rapidly grown in importance. This three-volume treatise on international criminal law presents a foundational, systematic, consistent, and comprehensive analysis of the field. Taking into account the scholarly literature, not only sources written in English but also in French, German, Italian, Portuguese, and Spanish, the book draws on the author's extensive academic and practical work in international criminal law. This third volume offers a comprehensive analysis of the procedures and implementation of international law by international criminal tribunals and the International Criminal Court. Through analysis of the framework of international criminal procedure, the author considers each stage in the process of proceedings before the ICC, including the role of legal participants, the scope of jurisdiction, and the enforcement of sentences. The full three-volume treatise addresses the entirety of international criminal law, re-stating and re-examining the fundamental principles upon which it rests, the manner it is enacted, and the key issues that are shaping its future. It is essential reading for practitioners, scholars, and students of international criminal law alike.

Question practice is essential for all papers, but particularly for P2 as it has a strong 'fear factor'. Questions look intimidating, and it is only once you get into the detail that you realise that there are easy marks on offer. Our examiner-reviewed Practice and Revision Kit gives ample opportunity to practice the long, case study questions, so important in the exam. Three mock exams provide essential exam rehearsal practice. Many questions have marking schemes, so that you can see that the examiner awards marks for these techniques.

The examiner-reviewed F8 Practice and Revision Kit provides invaluable guidance on how to approach the exam and

contains past ACCA exam questions for you to try. Questions are grouped by syllabus area so that you can easily identify what they cover. Detailed solutions provide tips, advise you how to approach questions and tell you how to gain easy marks. They also include examiner's comments, to help you understand what the examiner is looking for.

TOC Solved Paper (2019-2015), Practice Sets (1-25)

BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.

This volume contains several articles on the topic 'Detention in non-international armed conflict', including the Copenhagen Process, and moreover features contributions on autonomous weapons systems, Apartheid and the second Turkel Report. It also contains an elaborate Year in Review and a special section on the high-level Boundaries of the Battlefield symposium, including a conference report and several in-depth reflections on various other aspects of the symposium. The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high-quality, peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers and students.

This edition has been produced in order to update the health and safety legislation, with particular regard to changes relating to fire, construction (CDM), asbestos, vibration, noise, hazardous waste and the environment.

This new and updated second edition of *Debates in Mathematics Education* explores the major issues that mathematics teachers encounter in their daily lives. By engaging with established and contemporary debates, this volume promotes and supports critical reflection and aims to stimulate both novice and experienced teachers to reach informed judgements and argue their point of view with deeper theoretical knowledge and understanding. Divided into five accessible sections, this book investigates and offers fresh insight into topics of central importance in mathematics education, with this second edition including new discussions and chapters on: Classic and contemporary issues of pedagogy, politics, philosophy and sociology of mathematics education International comparisons of achievement Digital technologies for teaching Mastery in mathematics Pop culture and mathematics Whether mathematics can be harmful Designed to stimulate discussion and support you in your own research, writing and practice through suggested questions and activities throughout, *Debates in Mathematics Education* will be a valuable resource for any student or practising teacher, and those engaged in initial teacher education, continuing professional development or Master's level study. This book also has much to offer to those leading mathematics departments in schools and initial teacher education programmes, and to beginning doctoral students looking for a survey of the field of mathematics education research.

The second revised edition of *Governance in India* by Laxmikanth is focused exam-centric book for aspirants of the Civil Services and other similar competitive examinations. However, the nature of the topic and the contents will be extremely relevant and useful for those interested in understanding the evolving dynamics of the system of governance in the country. In his inimitable style which is hallmark of Laxmikanth's books, the author clearly identifies the topics of the subject and presents them in his familiar reader friendly format. It is also worth mentioning that these topics do not overlap with his *Indian Polity* book. If you are applying to Oxford or Cambridge Universities, you may be required to take one of the Oxbridge-specific admission tests. This text provides all the essential information you need to understand the format and structure of the tests along with vital practice in the sort of questions you will face. The book covers, in detail, the Thinking Skills Assessment (TSA) for both institutions, focusing on critical thinking and problem-solving skills. It includes a practice test with answers and explanations and also guidance on the writing task undertaken by applicants to Oxford. This revised and updated edition includes new material across all parts of the book. It provides enhanced information on interviews and personal statements, coverage of the Sixth Term Examination Paper (STEP), and expanded sections on the other tests for English, history, physics, mathematics and computer sciences. Rosalie Hutton BSc, MSc, MCIPD, is an Occupational Psychologist who has specialised in the field of assessment and testing for 25 years. As CEO of her own company, Rosalie has designed and published a range of psychological assessment measures and is the co-author of a number of assessment books on multiple-choice questions. Glenn Hutton BA, MPhil, FCIPD, is a consultant to organisations concerned with recruitment and selection by way of assessment or examination. Previously a Police Superintendent and Head of the National Police Training Examinations and Assessment Unit, he co-authors books on criminal law and

assessment.

This work introduces and further develops the feminist strategy of 'norm transfer': the proposal that feminist informed standards created at the level of international criminal law make their way into domestic contexts. Situating this strategy within the complementarity regime of the International Criminal Court (ICC), it is argued that there is an opportunity for dialogue and debate around the contested aspects of international norms as opposed to uncritical acceptance. The book uses the crime of rape as a case study and offers a new perspective on one of the most contentious debates within international and domestic criminal legal feminism: the relationship between consent and coercion in the definition of rape. In analysing the ICC definition of rape, it is argued that the omission of consent as an explicit element is flawed. Arguing that the definition is in need of revision to explicitly include a context-sensitive notion of consent, the book goes further, setting out draft legislative amendments to the ICC 'Elements of Crimes' definition of rape and its Rules of Procedure and Evidence. Turning its attention to the domestic landscape, the book drafts amendments to the United Kingdom (UK) Sexual Offences Act 2003 and to the Youth Justice and Criminal Evidence Act 1999: thereby showing how the revised version of the ICC definition can be applied in context of the UK.

A Core Study Text for the CTA Qualification

The Routledge Handbook on Deviance brings together original contributions on deviance, with a focus on new, emerging, and hidden forms of deviant behavior. The editors have curated a comprehensive collection highlighting the relativity of deviance, with chapters exploring the deviant behaviors related to sport, recreation, body modification, chronic health conditions, substance use, religion and cults, political extremism, sexuality, online interaction, mental and emotional disorders, elite societal status, workplace issues, and lifestyle. The selections review competing definitions and orientations and a wide range of theoretical premises while addressing methodological issues involved in the study of deviance. Each section begins with an introduction by the editors, anchoring the topics in relevant theoretical and methodological contexts and identifying common themes as well as divergence. Providing state-of-the-art scholarship on deviance in modern society, this handbook is an invaluable resource for researchers and students engaged in the study of deviance across a range of disciplines including criminology, criminal justice, sociology, anthropology, and interdisciplinary departments, including justice studies, social transformation, and socio-legal studies. Expert writers share reflections on their experience, and explore issues for the future, of the International Baccalaureate Middle Years Programme. The issues raised are of interest and relevance to those with responsibility for MYP teaching, learning and administration in schools and will provoke interest in the programme amongst those considering its adoption.

An account of how children learn L2s in formal contexts and how that knowledge impacts on the design, development, and evaluation of their language assessment products.

This timely book provides a comprehensive guide to, and rigorous analysis of, prosecutorial discretion at the International Criminal Court. This is the first ever study that takes the reader through all the key stages of the Prosecutor's decision-making process. Starting from preliminary examinations and the decision to investigate, the book also explores case selection processes, plea agreements, culminating in the question of how to end engagement in specific country situations. The book serves as a guide to the Rome Statute through the lens of the Prosecutor's activities. With its unique combination of legal theory and specific policy analysis, it addresses broader questions that will be relevant to other international and hybrid criminal courts and tribunals. The book will be of interest to students, practitioners of law, academics, and the wider public concerned with international law, criminal justice and international relations.

FIA - FAB Accountant in Business (ACCA F1) Study Text

Benefit from Easy and Quick Revisions for your Class 12 ISC Board Examinations (2022) with the help of Our 10 Years Solved Paper for Commerce Stream Students consisting of 10 subjects including English I, English II, Hindi, Physical Education, Mathematics, Computer Science, Economics, Commerce, Accounts, and Business Studies. Our handbook will help you study and prepare well at home. Why Should You Prepare from Gurukul ISC 10 Years Solved Papers for Class 12th Commerce? Our Comprehensive Handbook is a one-stop solution for Class 12 ISC students' study requirements, and is strictly based on the latest syllabus prescribed by the Board for in-depth preparation of 2022 Board Examinations. 1. Includes Yearwise Solved Board Papers from 2011 - 2020 2. 10 Commerce Subject Papers in one book 3. Extensive Practice of Last Years Papers will Boost Confidence Level 4. Facilitates Easy Last Minute Revision 5. Solutions Provided in accordance with the Board Marking Scheme 6. Enhance Your Time Bound Paper Solving Skills 7. Get Used to the Question Types and Structures, which allows to cultivate more efficient answering methods 8. Consists of Numerous Tips and Tools to improve Study Techniques for any Exam Paper Students can create vision boards to establish study schedules, and maintain study logs to measure their progress. Our Guidebook can also help in providing a comprehensive overview of important topics in each subject, making it easier for students to prepare for the exams. This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments including specimen answers. As NEBOSH actively grow their qualifications internationally,

demand for this book and its sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.
