Argues that queer Israeli emigrants engage in a deliberately unheroic form of resistance to Zionism. The very language of Zionism prizes the concept of immigration to Israel (aliyah, literally ascending) while stigmatizing emigration from Israel (yerida, descending). In *A Queer Way Out*, Hila Amit explores the as-yet-untold story of queer Israeli emigrants. Drawing on extensive fieldwork in Berlin, London, and New York, she examines motivations for departure and feelings of unbelonging to the Israeli national collective. Amit shows that sexual orientation and left-wing political affiliation play significant roles in decisions to leave. Queer Israeli emigrants question national and heterosexual norms such as army service, monogamy, and reproduction. Amit argues that emigration itself is not only a political act, but one that pioneers a deliberately unheroic form of resistance to Zionist ideology. This fascinating study enriches our understandings of migration, political activism, and queer forms of living in Israel and beyond.

Eight poems by Else Lasker-Schüler, translated by Eavan Boland, and a major essay by the translator on the life and times of the author. The poems are excerpted from Lasker-Schüler's 1943 collection, *My Blue Piano* (Mein Blaues Klavier), which she wrote while living in exile in Jerusalem after fleeing Nazi Germany.

Fast — paced and innovative, *No God in Sight* captures the seething multiplicity of Bombay through the first — person accounts of an abortionist, a convert, a pregnant refugee, a gangster in hiding, a butcher, and an apathetic CEO, among others. As the reader is hurtled from monologue to short story to anecdote, disparate lives collide in tantalizing ways. A family flees religious persecution in their village to take refuge in an urban slum; women walk the tightrope of free will and dormant violence; a father and son grant each other the relief of estrangement; and young men and women struggle to comprehend the consequences of sexual attraction. Insightful, ironic, and scathingly honest, *No God in Sight* is a brilliant debut by a talented young writer.

This book is designed to cover one year's work in Hebrew leading up to a full understanding of the language. It has been used by the author with his students for many years and the published text is the result of testing and refining over these years. Every attempt has been made to make the grammar clear and simple. For example, all Hebrew words are transliterated, as well as being given in the original for the first three-quarters of the book. The grammatical discussion is made as unsophisticated as possible for it is the author's intention that this book should also be of use to those who study Hebrew without a teacher.

A reference book on Modern Hebrew morphology and syntax, this describes the language as it is really spoken and written in Israel today. The author pays particular attention to functional distinctions, giving equal weight to colloquial and formal usage.

An illustrated exploration of colors and patterns in the animal kingdom, what they communicate, and how they function in the social life of animals. Are animals able to appreciate what humans refer to as “beauty”? The term scarcely ever appears nowadays in a scientific description of living things, but we humans may nonetheless find the colors, patterns, and songs of animals to be beautiful in apparently the same way that we see beauty in works of art. In *Animal Beauty*, Nobel Prize–winning biologist Christiane Nüsslein-Volhard describes how the colors and patterns displayed by animals arise, what they communicate, and how

they function in the social life of animals. Watercolor drawings illustrate these amazing instances of animal beauty. Darwin addressed the topic of ornament in his 1871 book *The Descent of Man and Selection in Relation to Sex*, and did not hesitate to engage with criteria of beauty, convinced that animals experienced color and ornament as attractive and agreeable in the same way that we do, and that the role this played in mate choice pointed to a “sexual selection” distinct from natural selection. Nüsslein-Volhard examines key examples of ornament and sexual selection in the animal kingdom and lays the groundwork for biological aesthetics. Noting that color patterns have not been a research priority—perhaps because they appeared to be nonessential luxuries rather than functional necessities—Nüsslein-Volhard looks at recent scientific developments on the topic. In part because of Nüsslein-Volhard's own research on the zebrafish, it is now possible to decipher the molecular genetic mechanisms that lead to production of colors in animal skin and its appendages and control its pattern and distribution.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Laura Berk's *Development Through the Lifespan* is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way. Berk's signature storytelling style invites students to actively learn beside the text's “characters.” Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains—physical, cognitive, emotional, social—throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of human development.
