Hedda Gabler is a play written by Norwegian playwright Henrik Ibsen. Ibsen was present at the world premiere, which took place on 31 January 1891 at the Residenztheater in Munich. It is recognized as a classic of realism, nineteenth century theatre, and world drama. The title character, Hedda, is considered one of the great dramatic roles in theatre. Hedda's married name is Hedda Tesman; Gabler is her maiden name. On the subject of the title, Ibsen wrote: "My intention in giving it this name was to indicate that Hedda as a personality is to be regarded rather as her father's daughter than her husband's wife."

Will Geronimo and his detective friend, Hercule Po Erich Auerbach's *Dante: Poet of the Secular World* is an inspiring introduction to one of world's greatest poets as well as a brilliantly argued and still provocative essay in the history of ideas. Here Auerbach, thought by many to be the greatest of twentieth-century scholar-critics, makes the seemingly paradoxical claim that it is in the poetry of Dante, supreme among religious poets, and above all in the stanzas of his *Divine Comedy*, that the secular world of the modern novel first took imaginative form. Auerbach's study of Dante, a precursor and necessary complement to *Mimesis*, his magisterial overview of realism in Western literature, illuminates both the overall structure and the individual detail of Dante's work, showing it to be an extraordinary synthesis of the sensuous and the conceptual, the particular and the universal, that redefined notions of human character and fate and opened the way into modernity.

Dracula: Large Print By Bram Stoker The world's best-known vampire story begins by following a naive young Englishman as he visits Transylvania to meet a client, the mysterious Count Dracula. Upon revealing his true nature, Dracula boards a ship for England, where chilling and gruesome disasters begin to befall the people of London... From the author of the Inspector Montalbano series, the remarkable account of an exceptional woman who rises to power in 17th century Sicily and brings about sweeping changes before being cast out in a coup after only 27 days. Sicily, April 16 1677. From his deathbed, Charles III's viceroy, Aniello de Guzmán y Carafa, marquis of Castle Rodrigo, names his wife as his successor. Eleanora de Moura is a highly intelligent and capable woman who immediately applies her political acumen to heal the scarred soul of Palermo, a city afflicted by poverty, misery and the frequent uprisings they entail. The Marquise implements measures that include lowering the price of bread, reducing taxes for large families, re-opening women's care facilities, and establishing stipends for young couples wishing to marry—all measures that were considered seditious by the conservative city fathers and by the Church. The machinations of powerful men soon result in Donna Eleanora, whom the Church sees

In *Translation and Rewriting in the Age of Post-Translation Studies*, Edwin Gentzler argues that rewritings of literary works have taken translation to a new level: literary texts no longer simply originate, but rather circulate, moving internationally and intersemiotically into new media and forms. Drawing on traditional translations, post-translation rewritings and other forms of creative adaptation, he examines the different translational cultures from which literary works emerge, and the translational elements within them. In this revealing study, four concise chapters give detailed analyses of the following classic works and their rewritings: *A Midsummer Night's Dream* in Germany, *Postcolonial Faust* Proust for Everyday Readers, *Hamlet* in China. With examples from a variety of genres including music, film, ballet, comics, and video games, this book will be of special interest for all students and scholars of translation studies and contemporary literature.

We are living in an open sea, caught up in a continuous wave, with no fixed point and no instrument to measure distance and the direction of travel. Nothing appears to be in its place any more, and a great deal appears to have no place at

all. The principles that have given substance to the democratic ethos, the system of rules that has guided the relationships of authority and the ways in which they are legitimized, the shared values and their hierarchy, our behaviour and our life styles, must be radically revised because they no longer seem suited to our experience and understanding of a world in flux, a world that has become both increasingly interconnected and prone to severe and persistent crises. We are living in the interregnum between what is no longer and what is not yet. None of the political movements that helped undermine the old world are ready to inherit it, and there is no new ideology, no consistent vision, promising to give shape to new institutions for the new world. It is like the Babylon referred to by Borges, the country of randomness and uncertainty in which 'no decision is final; all branch into others'. Out of the world that had promised us modernity, what Jean Paul Sartre had summarized with sublime formula 'le choix que je suis' ('the choice that I am'), we inhabit that flattened, mobile and dematerialized space, where as never before the principle of the heterogenesis of purposes is sovereign. This is Babel.

The strange circumstances surrounding the death of the world chess champion and alleged Nazi collaborator Alexander Alekhine, as investigated by a literary grand master On the morning of March 24, 1946, the world chess champion

Alexander Alekhine—“sadist of the chess world,” renowned for his eccentric behavior as well as the ruthlessness of his playing style—was found dead in his hotel room in Estoril, Portugal. He was fully dressed and wearing an overcoat, slumped back in a chair, in front of a meal, a chessboard just out of reach. The doctor overseeing the autopsy certified that Alekhine died of asphyxiation due to a piece of meat stuck in his larynx and assured the world that there was absolutely no evidence of suicide or foul play. Some, of course, have commented that the photos of the corpse look suspiciously theatrical, as though staged. Others have wondered why Alekhine would have sat down to his dinner in a hot room while wearing a heavy overcoat. And what about all these rumors concerning Alekhine’s activities during World War II? Did he really pen a series of articles on the inherent inferiority of Jewish chess players? Can he really be seen in photographs with high-ranking Nazi officials? And as for his own homeland, is it true that the Russians considered him a traitor, as well as a possible threat to the new generation of supposedly superior Soviet chess masters? With the atmosphere of a thriller, the insight of a poem, and a profound knowledge of the world of chess (“the most violent sport there is,” according to the Russian world champion Garry Kasparov), Paolo Maurensig’s *Theory of Shadows* leads us through the life and death of Alekhine: not so much trying to

In this book, philosopher Paul Brunton (1898-1981) encounters the mysteries and magic of Egypt in the 1930s, including an eerie yet illuminating night spent alone inside the Great Pyramid. Alongside his explorations of ancient Egypt's monuments and gods, Brunton encounters a variety of occultists, fakirs, and dervishes, and even manages to become initiated into the deadly art of snake charming. His frank interviews with Muslim leaders remain relevant today, and his description of the Hajj reflects the beauty and inspiring faith of Mohammad's true followers. Brunton's journey to discover the furthest reaches of what the mind and body are capable of--and to distinguish various forms of yoga and magic from true spirituality--lead him to the myth of Osiris and to the mystery that is the Sphinx itself. In the end, Brunton turns his attention to his own spiritual path, connecting all of his experiences into a single discovery: that we are more than the body and that the freedom of our spirit can be experienced here and now. This new edition has been updated to incorporate Brunton's final revisions and includes an introduction by the Paul Brunton Philosophic Foundation. "Paul Brunton was a great original and got to a place of personal evolution that illumines the pathways of a future humanity."
--Jean Houston, author of *A Passion for the Possible* and *A Mythic Life* "Any serious man or

Jean Hani, professor emeritus at the University of Amiens - where he taught Greek civilization and literature - has long labored to recover and illuminate various aspects of Christianity. His findings have been presented in several works: *Divine Craftsmanship*, *The Divine Liturgy*, and *The Black Virgin* (all published by Sophia Perennis), as well as *Aperus sur la Messe*, *La Royaut*, *Du Pharaon au Roi Trs Chrtien*, and a collection of articles entitled *Mythes, Rites et Symboles*. His aim has been to integrate the latest findings in the history of religions with the perennialist spiritual perspective of such writers as Ren Guon and Frithjof Schuon. That sacred art no longer exists today is all too clear, despite the intense efforts of some to make us believe in the value, in this respect, of the most questionable productions. We can perhaps speak of a religious but certainly not a sacred art; indeed, between these two notions lies a radical difference rather than a nuance. True sacred art is not of a sentimental or psychological, but of an ontological and cosmological nature. This being so, sacred art will no longer appear to be the result of the feelings, fantasies, or even 'thought' of the artist, as with modern art, but rather the translation of a reality largely surpassing the limits of human individuality. Sacred art is precisely a supra-human art. The temple of former times was an 'instrument' of recollection, joy, sacrifice, and exaltation. First through the harmonious combination of a thousand symbols founded in the total symbol that it itself is, then by offering itself as a receptacle to the symbols of the liturgy, the temple together with the liturgy constitute the most prodigious formula capable of preparing man to become aware of the descent of

Grace, of the epiphany of the Spirit in corporeity. It is a matter of urgency, then, to recall what is true sacred art, especially since - praise God - here and there more and more active signs of resistance to the anarchy and subversion manifest themselves, and a pressing call is felt to recover the traditional conceptions that must form the basis and condition of any restoration. "Very funny and unexpected, a material response to our times, plush as velvet." –Rachel Cusk "A wickedly funny and emotionally expansive novel about all the bewildering ways we seek solace from the people and things that surround us." – Jenny Offill David Leavitt returns with his signature "coolly elegant prose" (O, The Oprah Magazine) to deliver a comedy of manners for the Trump era. It is the Saturday after the 2016 presidential election, and in a plush weekend house in Connecticut, an intimate group of friends, New Yorkers all, has gathered to recover from what they consider the greatest political catastrophe of their lives. They have just sat down to tea when their hostess, Eva Lindquist, proposes a dare. Who among them would be willing to ask Siri how to assassinate Donald Trump? Liberal and like-minded editors, writers, a decorator, a theater producer, and one financial guy, Eva's husband, Bruce-the friends have come to the countryside in the hope of restoring the bubble in which they have grown used to living. Yet with the exception of one brash and obnoxious book editor, none is willing to accept Eva's challenge. Shelter in Place is a novel about house and home, furniture and rooms, safety and freedom and the invidious ways in which political upheaval can undermine even the most seemingly impregnable foundations. Eva is the novel's polestar, a woman who moves through her days accompanied by a roving, carefully curated salon. She's a generous hostess and more than a bit of a control freak, whose obsession with decorating allows Leavitt to treat us to a slyly comic look at the habitués and fetishes of the so-called

shelter industry. Yet when, in her avidity to secure shelter for herself, she persuades Bruce to buy a grand if dilapidated apartment in Venice, she unwittingly sets off the chain of events that will propel him, for the first time, to venture outside the bubble and embark on a wholly unexpected love affair. A comic portrait of the months immediately following the 2016 election, Shelter in Place is also a meditation on the unreliable appetites-for love, for power, for freedom-by which both our public and private lives are shaped.
